Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced its enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint. Using as a weapon a metal spoon sharpened to a keen edge, Refugio Juarez, sentenced to hang for criminal assault at Floresville, Texas, fought desperately on the platform of the scaffold to prevent the execution, and succeeded in stabbing Sheriff William Wright over the heart when he attempted to adjust the black cap. The blade, however, was deflected when it struck a bone and the wound is not considered necessarily serious.

Trouble Makers Ousted.

When a sufferer from stomach trouble takes Dr. King's New Life Pills he's mighty glad to see his Dyspepsia and Indigestion fly, but more—he's tickled over his new, fine appetite, strong nerves, healthy vigor, all because stomach, liver and kidneys now work right. 25c at Penny's Drug Store.

Women Who Are Envied.

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Penny's Drug Store.

NO EXCUSE FOR PRESENT CONDITIONS.

AUDITOR JAMES is a good man, but he can not refrain from juggling figures to make a point against the late democratic administration in order to bolster up the present incompetent management of the State's affairs. Mr. James claims that the present condition of its finances is due in part to large appropriations by the Legislature, which did not provide for their payments but the appropriations were no larger than usual, when a democratic administration paid them and kept the State's credit gilt edged. There is little excuse for the present condition. The republicans have the benefit of a most exacting revenue law, the same tax rate as formerly, with large increase in assessments. Besides the useless expenditure of \$160,000 for soldiers to put down the night riders, there have been other leaks in the treasury, not known under democratic rules. We should like to hear Auditor James explain the quite remarkable fact that in the only two republican administrations that have discredited the State, the treasury has suspended payment and its warrants gone below par. It was so during Gov. Bradley's regime. It is so under Gov. Willson's. Perhaps after a while the people may be convinced that the republicans can not be trusted with the State's management and vote so unanimously hereafter to keep them out of power that none of them will dare offer for State office again.

THE LAW makes the members of the fiscal court personally liable to fines of \$50 each for failure to publish the county's financial condition annually. The Franklin county fiscal court was indicted for failing to publish the report and after a hard fought legal battle escaped on a flimsy technicality and a promise to obey the law hereafter. The fiscal court of Mercer doesn't propose to suffer prosecution and fine, so it publishes the county's financial statement in the current issue of the Herald, which shows it to be in good shape. When courts flagrantly disregard the law, a suspicion is created at once that there is something rotten, not only in Denmark, but in the management of the county's affairs. Fiscal courts which are perfectly confident that everything is right will not permit themselves to rest under suspicion by not publishing the statements.

RUSSELL SAGE, who died leaving many millions of dollars, made and maintained a reputation for penuriousness that was equalled only by his accumulations. They profited him little, however, as the only enjoyment he got out of his money was that of possession. Since his death his wife has been trying to make up for his closeness by being as liberal as he was tight-fisted. In the three years since he went hence, Mrs. Sage has given to various institutions and charities more than \$25,000,000, nearly always in the name of her husband, who gets no credit for it here and does not serve to ameliorate his condition now and hereafter.

OUR readers may not know it but there is a manufactory of automobiles at Lexington which turns out five very fine machines a week, for which there is great demand. Every thing except the iron frames and wheels are made in the factory, which now employs 64 men. An increase in the capital stock of the concern was ordered last week which will enable it to build a machine a day. "The Lexington" is the name given the car, which is a great advertisement for the capital of the Blue Grass.

MRS. ANNIS, widow of the man Capt. Hains killed, for which he is serving a long term in a New York penitentiary, says she will marry as soon as her theatrical engagements end, adding that she can never be happy again in this world, although she knows her prospective husband will do all in his power to make her happy. Mrs. Annis is just talking through her merry widow. It doesn't take the average woman long to be off with the old love when she gets a chance at a new.

THE Burley Tobacco Society has fixed President Clarence LeBus' salary at \$39,000 for three years. Mr. LeBus is said to be a fine business man and to have accomplished a good deal for the tobacco producers, but to a rank outsider this seems to be a pretty good bunch of money for them to put up for it.

It is made unlawful by an act of the Washington Legislature to smoke a cigarette within the Alaskan Yukon Exposition. It would be a good thing for the little fellows who puff them here if Stanford was embraced in the confines of that exposition.

WILLIAM J. BRYAN is in the race for United States Senator from Nebraska. This statement was made by Richard L. Metcalfe, editor of the Commoner. Mr. Metcalfe says Bryan will at once begin formulating a campaign.

A LONDON special says: "Congressman D. C. Edwards denies that he intends to move to Richmond, stating that he would stay at London until he was defeated for the nomination for re-election, but in that event that he might move to the Eighth district and tackle Harvey Helm." Mr. Edwards will find it far easier to defeat men of Caleb Powers' ilk than he would gentlemen of Hon. Harvey Helm's political and social standing. However, for the fun of the thing he might come down and try a bout with the "Tall Sycamore of the St. Asaph."

AN Indiana preacher endeavors to focus attention to himself by stating that the reason girls are so fond of dancing is that they want to get themselves hopped. This is the veriest poppy cock. Indiana girls may seek such opportunity to be hopped. The ones we know do not have to resort to such efforts. They can get all the hopped they want without half trying.

CURTIS JETT signs his letter urging the enforcement of the law against assassins in Breathitt county, "Yours in Jesus." The penitentiary has had apparently quite a soothing effect on this talented young assassin, but it is possibly a case of when the devil is sick a monk he'd be, when the devil is well, the devil of a monk is he.

The proposed 14-foot deep waterway project from St. Louis to the gulf received a blow when the board of engineers reported to Congress that such a waterway is not desirable. The waterway would cost \$128,000,000 for construction and \$6,000,000 annually for maintenance, the engineers say.

Income tax shared with the wool schedule the attention of the Senate and after discussion of an hour or more its further consideration was postponed until June 18. This action was the result of a motion made by Senator Aldrich which followed a charge by Senator Bailey that undue influence was being brought to bear against the proposed income tax amendment to the tariff bill.

Denouncing as inexcusable and indefensible any proposition by the Finance Committee to increase the low rates fixed by the House bill for the protection of the print paper industry, Senator Brown, of Nebraska, declared that that industry needs no protection.

Three Ideal Farms In One.

The perfection of real estate, all that is beautiful and desirable in country life, including locality, soil and improvements, is embodied in a farm of 435 acres, adjoining the thriving town of Bryantville, Ky., and near the famous Camp Dich Robinson farms, which sell at over \$100 per acre. There are three tracts, with dwellings and improvements on each, suitable for three families desiring to locate on adjoining farms; or, if bought by one party, two houses could be occupied by tobacco tenants. The best equipped barn in the county, is on the premises, having water supplied by a wind-mill. The floors are built as residence flooring, the stalls are large and well constructed, machinery for cutting feed being run by an engine.

Stock scales and a large tobacco barn are among other improvements. The land lies well and is of a high grade, well fenced, well watered a portion of it being matted with blue grass, in gently undulating pastures. Most of the land has been kept in grass and will easily raise 1,500 pounds of hemp, 1,800 pounds of tobacco and 60 to 75 bushels of corn. Such soil is the basis of all value, and the large profit, which it yields on the investment, explains why capital is seeking real estate, it being not only the best but the safest investment. This, together with the fact that population is increasing, thereby insuring a continuance of good prices for farm products, proves that good real estate will continue to advance in price.

Besides the intrinsic value of a home, the locality and surroundings render it more or less valuable. Good roads, good schools, churches and good morals are important factors, in determining the value of a farm, because they contribute to man's substantial happiness, which is the mainspring of human action and the object sought, in every section of our God-favored country. These elements enter largely into the attractiveness and, consequently, the value of this property. It lies on a splendid turnpike for a distance of about one mile, the community consists of the highest grade of citizenship, the people being moral, cultured and exceedingly hospitable. The residences are in sight

of Bryantville, which has a thriving bank,

up-to-date merchants, a good school and a

church of large membership, that town being

about 9 miles from Lancaster, the county seat of Garrard County, on the Lexington pike. The enterprise of the citizens in that section is further manifested by the fact that they are preparing to establish a Graded School at Bryantville, and if they succeed, which is almost certain, this property will advance from 10 to 20 dollars on the acre, as property has done near Lancaster and other towns, where such schools have been established, keeping the money and children at home and giving them a good education. This picture is not overdrawn, and we invite those looking for a bargain in a some that has all the attractive features, to let us show it to them. This farm is also within four miles of a navigable stream, which is of greater advantage for markets than the same distance from a railroad, for it gives cheaper rates and better facilities for transportation to market of all farm products, and live stock can be shipped from one head up to a boat load, while coal and lumber can be purchased at less price. It is down grade to the river, and a good pike.

We positively believe that this land is worth \$100 per acre, and yet it is offered at \$50 per acre as a whole, if sold at once;

however the entire farm is susceptible of

farm products, proves that good real estate

will continue to advance in price.

MORE OPPORTUNITIES

Yes, we have them—farm lands—in different localities, off the pike and on the pike—improved and unimproved—50 acres—100 acres—200 acres—any number of acres you want—from \$35 per acre to \$100 per acre. We can suit you. Try us. All bargains of a lifetime. 500 acres extra good—266 acres superior land highly improved. 225 acres, extra good, near Paint Lick, fine residence and three tobacco barns. Our price is the owner's price. No excess contracts. If you want to buy a farm write us or come to see us.

It is therefore ordered and adjudged that the gentlemen composing the democratic county committee meet and they and each of them are hereby ordered and directed to meet as such committee on Monday, July 5, 1909, and hear the contest of the plaintiff, M. S. Baughman, against W. L. McCarty for the democratic nomination for sheriff of Lincoln county." The court then adjourned and the May term of the Lincoln Circuit Court became a memory.

will make the 1909 season at my farm where I live, ½ mile South of Stanford on the Somerset pike as \$10 to insure a living colt. This young jack's colts won more premiums in 1907 and 1908 than any jack in the country. His two colts colts have won many awards in their class of colts and yearlings and look like winners for 1909. They were shown at all local fairs both years and at Lexington and Kentucky State Fair in 1908. His first colt was the winner at the Kentucky State Fair at several local fairs. Some of his 1907, 1908 and 1909 colts are on my farm to show for themselves.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bent backs to straight again. That is impossible.

In Germany—found a Chemist in the City of Darmstadt—found the last ingredient with which Dr. Shoop's Rheumatic Remedy failed—a powerful diuretic. I successfully treated many cases of Rheumatism; but now, at last, uniformly cures all curable cases of this horrible much-diseased disease. Those hand-like granular warts, found in common sores, are easily removed with the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the body is now no longer subject to the attacks of rheumatism.

Dr. Shoop's Rheumatic Remedy is now for sale. It is a safe and effective cure to suffer longer with out help. We sell, and in confidence recommend
